U.S. Patent No. 12152861

Partes / Parts

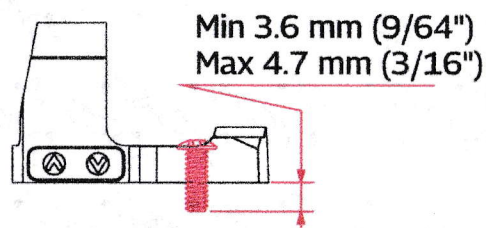

N° de serie / Serial no. **319389**

① Instrucciones de colocación de la mira / Sight installation instructions

ES Colocar la mira sobre el montaje y fijarla con tornillos UNC 6-32 de tal largo que no sobresalgan más de 4.7 mm (3/16") por debajo de la mira; y tampoco menos de 3.6 mm (9/64").

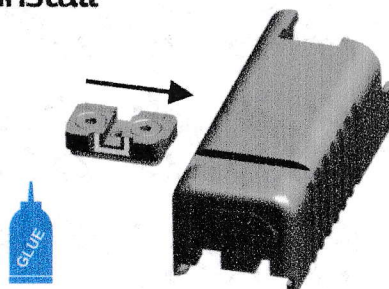

EN Use UNC 6-32 screws with a thread engagement between 3.6 mm (9/64") and 4.7 mm (3/16") below the sight.

② Pasos para instalación / How to install

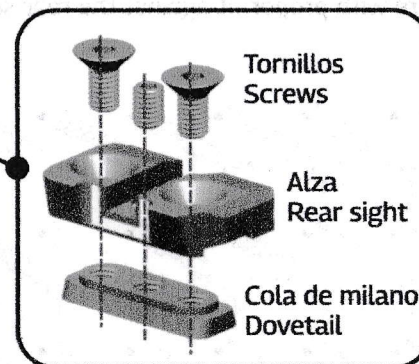

ES Sacar el alza original de la pistola y colocar el alza CAT. Aplicar pegamento para roscas y ajustar los tornillos.

EN Remove the original rear sight from the pistol, and install the CAT rear sight. Apply threadlocker and tighten the screws.

Warranty

EN Register your one-year warranty for manufacturing defects by sending an email to sales@catdevices.com with the device's serial number. This warranty does not cover defects caused by misuse and is only valid for the buyer who registers the warranty.

③

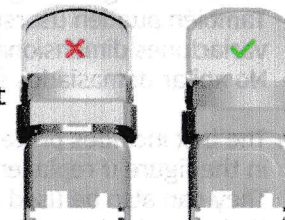

ES Colocar la mira de atrás hacia adelante. Primero colocar el alza dentro del montaje y luego dejar bajar con la fuerza del imán. Para sacarla, hacer el movimiento contrario.

EN Install the sight from back to front. First, place the rear sight into the mount, then let it drop into place with the force of the magnet. To remove it, perform the reverse motion.

④

ES La colocación es correcta si no se ve el alza desde atrás y queda oculta.

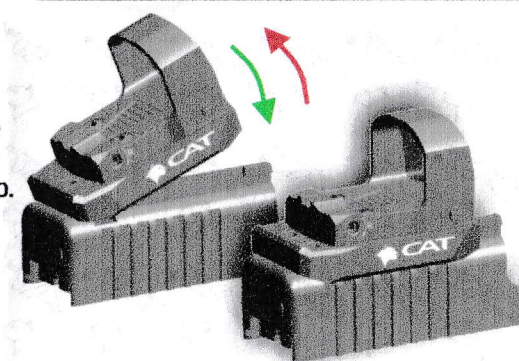

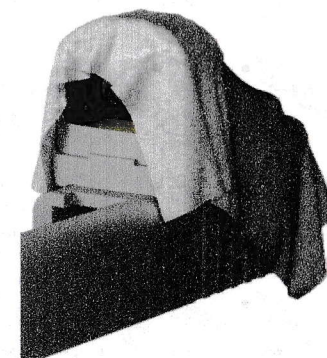

EN The installation is correct if the rear sight is not visible from behind and remains concealed.

⑤ Mantenimiento Maintenance

ES Limpiar el montaje solamente con un paño limpio y seco. Retire polvo o arena antes de frotar. Verifique que no haya restos metálicos en el imán.

EN Clean the mount only with a clean, dry cloth. Remove dust or sand before wiping. Check that there are no metal particles on the magnet.

⑥ Cobertor de protección inferior / Bottom protection cover

ES La caja incluye stickers protectores para la base del montaje.
Aplicarlos según la figura en caso de reemplazo por desgaste o despegue.
También pueden usarse como suplemento para correderas con
variaciones dimensionales respecto a su estándar.
No apilar demasiados stickers ya que puede dificultar el calce con el alza.

EN The box includes protective stickers for the mount base. Apply them as shown
in the figure if replacement is needed due to wear or detachment.
They can also be used as shims for slides with dimensional variations from
their standard specification.
Do not stack too many shims as this may interfere with proper fit against the rear sight.
